Fisheries Certificate Schedule

Irikla Reservoir Perch and Pikeperch Gillnet Fishery

Client/Certificate Holders:
followfood GmbH

Management System: Management for this fishery falls under the management of the Federal Agency for Fishery (Rosrybolovstvo / Росрыболовство) an Agency of the Ministry of Agriculture of the Russian Federation.

Chain of Custody: The UoC includes all licensed commercial perch and pikeperch fishers in Irikla Reservoir. Where feasible, individual fishers deliver catches directly to the processor (also the client group), or alternatively, the processor collects fish on a routine basis from each fishing parcel, where fish are temporarily stored in cold stores. There are no sub-contractors or transport companies used. The point of change of ownership from which chain of custody certification is required starts at the first of point of sale between fishers and the processor (followfood GmbH).

Eligible Fishers: The only party eligible to use the fishery certificate is the client (followfood GmbH) and the fishermen and vessels nominated by the client.

See MSC website for an up-to-date list of fishermen and vessels:
